

**AUTOFILL**

# AF-4

Smart Concentration Technology mixes two liquids at precise concentrations to save valuable time and prevent costly mistakes. AUTOFILL simplifies monitoring and tracking for the user.

PASSWORD PROTECTED AND PROGRAMMABLE TO YOUR EXACT SPECIFICATIONS

- ◆ Easy to Read, Full Color, 4.3" LED Touchscreen
- ◆ Fully Programmable for Concentrations from 0%-100%
- ◆ Brix Correction Multiplier
- ◆ Calibration to Specific Viscosities for Precise Concentration Levels
- ◆ Pulse Mode for Thorough Concentration Distribution Throughout the Entire Dispensing Process
- ◆ Flow Fault Alarm
- ◆ Low Concentrate Alarm Programmable to Specified Container Size
- ◆ 5-Pin Quick Disconnect Cable to "Handshake" with Machine's Interface

## AF-4 Facts

Magnet/wall mount AUTOFILL to dispense user-defined, pre-programmed amount in quantities of 0-10,000 gallons at 0%-100% concentrations.

Outside Dimensions	12"x15 <sup>1</sup> / <sub>2</sub> "x4 <sup>1</sup> / <sub>2</sub> "
Mount Type	Magnet/Wall Mount
Construction Material	Heavy Duty Steel
Power Source	110v
Display	PLC Touchscreen
Hose Fitting	Standard 3/4" MHGT

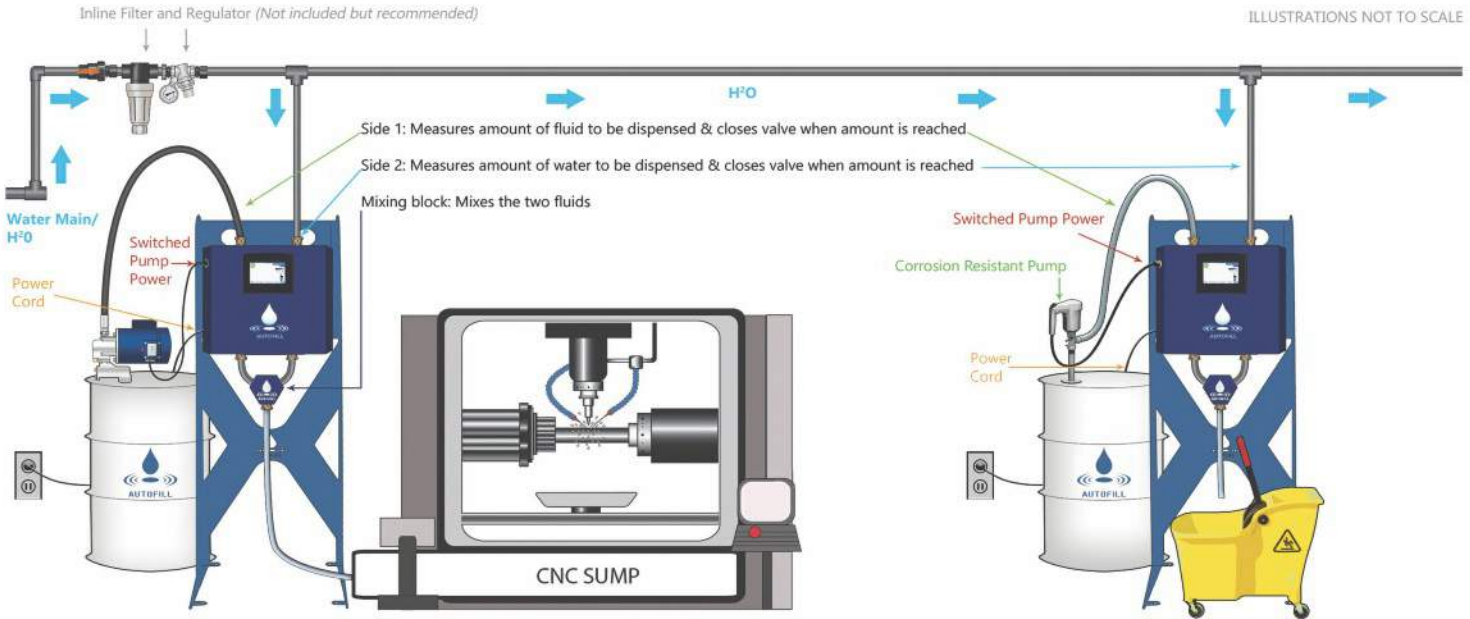

100,000 Gallon Guarantee. Shipping rates apply. Flow rate may vary depending on water pressure at the source.

Your liquid dispenser, only **smarter...**  
just got **smarter.**

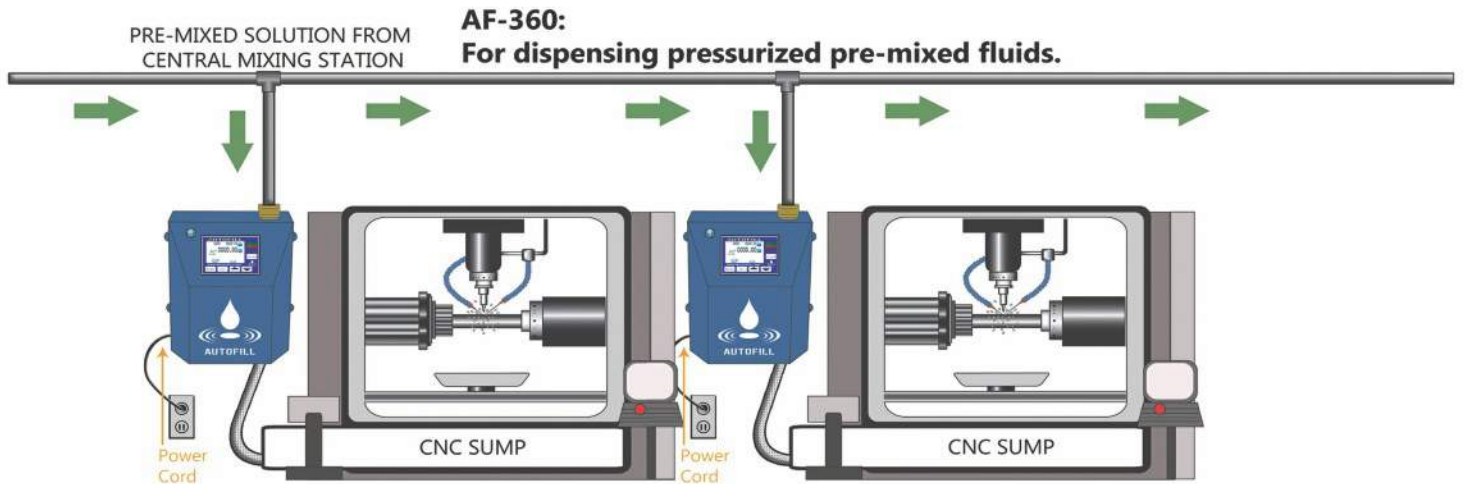

# HOW AUTOFILL WORKS

ILLUSTRATIONS NOT TO SCALE

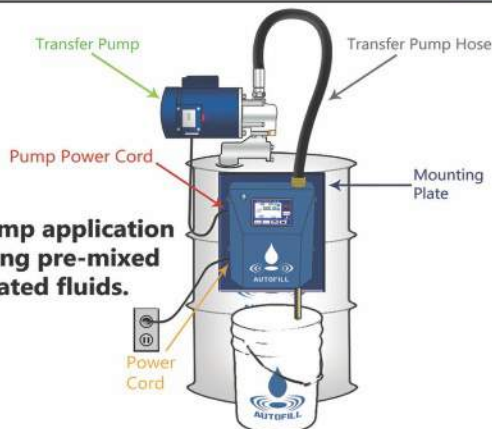

**AF-4:**  
Shown with oil pump to mix cutting oil with water and supply CNC machine with mixed cutting fluid.

**AF-4:**  
Shown with corrosion resistant pump to mix chemical with water and dispense into mop bucket for janitorial/sanitation use.

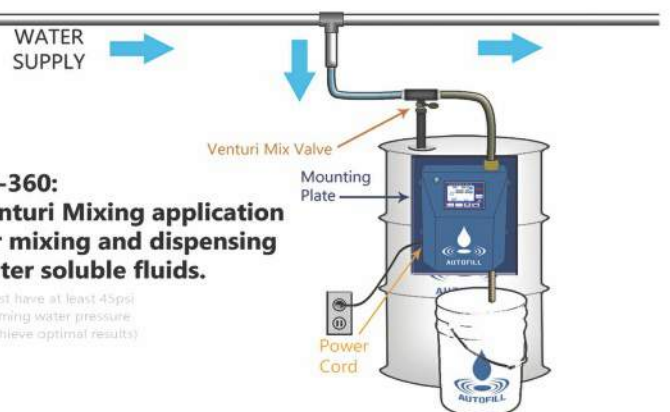

**AF-360:**  
Transfer Pump application for dispensing pre-mixed or concentrated fluids.

**AF-360:**  
Venturi Mixing application for mixing and dispensing water soluble fluids.

\*Must have at least 45psi incoming water pressure to achieve optimal results

Your liquid dispenser only **smarter.**

# AF-360

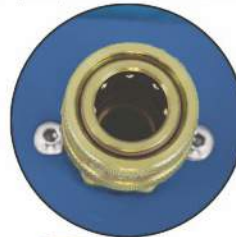

The AF-360 is an automatic liquid dispenser that saves significant time throughout the dispensing process while virtually eliminating the risk of costly spills. AUTOFILL saves time, money, and the environment.

- Precise dispensing
- Maximizes labor efficiency
- Product loss prevention
- Track and monitor usage
- Reduces tooling costs
- Consumes very little electricity
- Creates safer work environment

Easily Programmable Controls

High Quality Brass Quick Disconnects

Integrated Power Outlet for Pump

Machine/Wall Magnet Mount

Power Supply Port

Lighted Logo On Faceplate During Operation

Down-Lighting Under The Unit

Standard Hose Fitting Thread Pattern

## AF-360 Facts

Magnet/wall mount AUTOFILL for use with pre-mixed solutions from a barrel, tote, or central coolant system.

Outside Dimensions 12"x9"x4"

Mount Type Magnet/Wall Mount

Construction Material Heavy Duty Steel

Power Source 110v

Display LCD Touchpad

Hose Fitting Standard 3/4" MHGT

100,000 Gallon Guarantee. Shipping rates apply.  
Flow rate may vary depending on water pressure at the source.

# AF-ACCESSORIES

## AF-STAND

The AF-STAND was specifically designed to mount your AUTOFILL unit securely while in use in a variety of environments.

- ◆ Heavy duty steel
- ◆ Modular construction for mobility, adaptability, and permanent mounting
- ◆ Engineered to accommodate AUTOFILL, cords, hoses, and other accessories
- ◆ Powder-coated to withstand manufacturing environments
- ◆ Keeps AUTOFILL at optimal height

## AF-DRUM PLATE

The steel plate provides secure mounting for the AF-360 to a drum or tote.

- ◆ Heavy duty steel
- ◆ Perfect fit for 55-gallon drums and totes
- ◆ AF-360 magnetically mounts to plate at a comfortable viewing angle
- ◆ Powder coated to withstand manufacturing environments
- ◆ Easily switch barrels with the AF-360 attached

## AF-KITS

### AF-O

This kit features a drum-mounted oil transfer pump for non-combustible fluids

### AF-C

This kit utilizes a chemical resistant pump for janitorial and sanitation applications

### AF-V

This kit includes a Venturi Mix Valve for mixing 0%-10% concentrations

\*(Must have at least 45psi incoming water pressure to achieve optimal results)

## Your liquid dispenser, only **smarter.**

Located in America's heartland, AUTOFILL produces the first and only Patent Pending Solution to automatically dispense liquids. Whether dispensing pre-mixed solutions or mixing two liquids; AUTOFILL can automatically dispense your preprogrammed amount in quantities of 0-10,000 gallons at 0%-100% concentrations. Each unit provides the opportunity to track and monitor usage while saving significant time compared to traditional dispensing methods.
